

BRISTAN

**The Easy
Choice
for Kitchen
Taps**

**NEW DESIGNS. NEW FINISHES.
NEW PULL OUTS.**

Introducing the latest additions to our kitchen tap range

PRODUCT BENEFITS EXPLAINED

ECO-START

Cold water is set in the default upright start position of the tap handle. Hot water is only activated when the tap lever is moved from the upright position.

PRECISE GLIDE

Features ceramic cartridges for long life durability and more precise control.

QUICK CHANGE

To change this product for something else, simply turn off the water supply and remove.

SECURE FIX

Comes with metal fixings to secure your tap in place, so it won't move or rotate during use.

THERMACLICK

A mid-point click indicating a comfortable handwashing temperature.

LUMINANCE CHROME

A hard-wearing, flawless finish that lasts for years. It's also scratch resistant and salt spray tested to ensure added durability.

EASYFIT

Designed to make installation quicker and easier. The complete top fix solution.

SAVE MONEY AND ENERGY WITH ECO START

Cold water is set in the default upright start position of the tap handle, so the boiler is only fired up when the lever is moved from the upright position, saving energy compared to standard mixer taps.

POSITION 1. **COLD WATER**

POSITION 2. **MIXED WATER**

POSITION 3. **HOT WATER**
